

TELECOMMUNICATIONS

No matter what your company size or project load, NewFields has the expertise and experience to guide your telecommunications project through the environmental compliance process.

With telecommunications experience in more than 45 states (including Tribal lands), the professionals at NewFields have assisted our Clients with their environmental compliance programs at thousands of telecommunications sites, including tower sites, wireless switching facilities, and wireline offices. Our team of engineers, biologists, archeologists, and tribal consultants have vast expertise in the following:

- National Environmental Policy Act (NEPA) siting reviews, including:
 - Section 106 Review
 - Archaeological Investigation
 - Tribal consultation
 - Wetland evaluation and delineation, and
 - Collocation compliance
- Phase I and Phase II Environmental Site Assessments
- Preparation of Spill Prevention, Control, and Countermeasures (SPCC) Plans
- Preparation of Storm Water Pollution Prevention Plans (SWPPPs)

NewFields has a proven track record of developing and implementing innovative and cost-effective solutions specific to our telecommunication clients' needs.
